

Role: Investment Analyst

Reports to: SixThirty Principal

What is SixThirty all about?

SixThirty is a global FinTech & InsurTech venture capital fund and go-to-market program. Our mission is to find the most innovative ideas in enterprise financial technology (“FinTech”), insurance technology (“InsureTech”) and cyber security across the globe, and work with corporate partners to mentor and grow them into great businesses. We invest in and help grow between 8 - 12 late seed-stage companies each year, providing funding, mentorship, and connections. Our partners include Ernst & Young, Reinsurance Group of America (RGA), Allianz, Bank of New York Mellon Pershing, World Wide Technology. More information is available at sixthirty.co & sixthirtycyber.com

What will an Analyst do?

SixThirty is a high velocity, high volume investor in early-stage startups in the financial technology, insurance technology, and cyber security technology sectors. An opportunity exists for to join our team as an Investment Analyst to support and assist due diligence on investment opportunities. The Analyst is expected to dig in deep on the companies that rise to the top of the investment pipeline funnel. Core to this task is the expectation that the Analyst will conduct market research on an ongoing basis to inform how startups fit within the relevant market landscape. The Analyst will work closely with other team members focused on driving the investment pipeline and managing our partnerships with corporate partners, whose objectives often guide our investment activity.

Analyst responsibilities will include:

- Investment due diligence
 - Assist SixThirty team in evaluating prospective investments
 - Collect, manage, analyze data relevant to investment opportunities
 - Write investment memos to be reviewed by SixThirty Investment Committee
 - Build strong relationships with founders at startups that SixThirty is considering investing in
 - Cultivate a network of subject-matter experts to validate technology, business models, and IP of prospective investment opportunities
 - Conduct product demos and collect other data on user experience
- Market Research
 - Lead research on the trends, competitive environment, and opportunities in FinTech, InsureTech, and horizontal technologies such as AI, security, and blockchain
 - Take ownership of sub-investment themes / theses
 - Outline potentially interesting areas of investment
 - Develop thought leadership, leveraging SixThirty observations / investment thesis
 - Working with SixThirty team members, leverage SixThirty corporate partnerships to develop co-branded research and insights on investment opportunities
- Administration
 - Keep databases and tools updated
 - Assist with investment sourcing/pipeline development, marketing efforts for the fund, knowledge aggregation

- Coordinate with SixThirty team members, co-investors, and third party service providers on moving a company from prospect to portfolio company
- Assist with other areas of SixThirty operations as requested

What are we looking for?

FinTech and InsureTech are two of the fastest growth areas in tech and venture capital. We are looking for someone that is comfortable and excited about working in a fast paced environment. The ideal candidate can juggle many responsibilities, while simultaneously prioritize key activities. In our opinion, this may be demonstrated through the following attributes:

- An undergraduate degree in business, economics, marketing, or data analysis related fields
- Strong analytical skills
- Ability to communicate concisely, with depth and accuracy
- Enjoys getting deep into research topics
- A genuine interest in the areas we invest
- Detail oriented
- Experience cultivating and managing professional relationships
- Respect for risk taking challenges of entrepreneurs
- Diversity of background and perspective
- Passion with new technology

The offer

The SixThirty Analyst is a full-time paid position. The Analyst reports to the Principal, and the position is based in St. Louis, MO. Our office is located at T-Rex in downtown St. Louis.

- Health benefits
- 401(k) plan
- Paid time off
- Growth and leadership opportunities
- Membership to T-Rex co-working space & technology incubator
- Culture of high-growth FinTech, InsureTech, and Cyber Security companies; highly collaborative and supportive of start-up community

To apply

Send resume along with answers to questions below to Joel Brightfield, Principal, at joel@sixthirty.co

- Why are you interested in the Analyst role? (250 words)
- What technology company do you admire and why? (500 words)
